DRAINAGE FACILITY LIABILITY INSURANCE REQUIREMENT

Alternative formats available
upon request

King County Code 09.04.100 requires liability insurance that names King County as an additional insured to protect King County from liability. Currently, this amount must not be less than \$1,000,000 for property damage, any accident, negligence, failure of the facility, or any other liability relating to the construction or maintenance of drainage facilities required by King County Code 09.04.050.

To comply requires submittal/confirmation of ALL of the following documentation:

1. An Acord Certificate of Insurance **and a copy of the Additional Insured Endorsement**. King County prefers CG2026 or CG2012, however, if your insurance company does not use either of these forms, you may submit a substitute and our Risk Manager will review and either approve or deny the substitute form.
2. Under the section labeled "DESCRIPTION OF OPERATION, LOCATIONS, VEHICLES, SPECIAL ITEMS", please insert:

King County, its appointed and elected officials and employees, are named as an additional insured with respect to liability relating to the construction or maintenance of the drainage facilities required by project, _____.
This policy provides insurance in the amounts and types of coverage required in King County Code 09.04.100.

3. Under the cancellation section, please insert:

Should any of the above-described policies be canceled before the expiration date thereof, the issuing company will mail 30 days written notice to the certificate holder named to the left.

4. In the box labeled, "Certificate Holder", please insert:
